What happens on the train?

Hello my dear 2nd Graders!

Welcome back! I hope you had a wonderful and fun summer break!

This month, we will continue our Journeys lesson entitled "Lucia's Neighborhood". We will also start a new lesson entitled "Gus Takes the Train". Have you been on a train before? Did you ride the bullet train? Where did you go? What did you see? I hope you had a great time exploring different places. If you ride the train, remember to behave well, wear your mask and be careful.

Let's do our best and have fun learning English!

Arts and Craft

"I love all the colors mixed together".

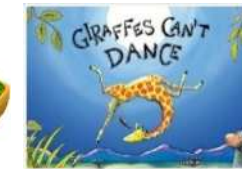

- The color Black

Hello everyone!

It's good to have you back! This month in Art, we will be using Paper Clay to make our own Delicious Lunch Box! You will need your paint sets for this project.

We will also be making an artwork based on the book "Giraffes Can't Dance" by Giles Andreae. Have you read it before? What do you think this book is about?

I'm looking forward to lots of wonderful projects this term!

Our Projects

- Delicious Lunch Box
- Giraffe's Can't Dance

Useful Words

- marbling gradation
- paint details
- blend dark
- colorful light

Physical Education

Back to School in September!

Welcome back 2nd Graders! I hope you had a great vacation! 😊

September is still a very hot month, so we will try to stay cool in the arena! This month, we will do fun exercises with our bodies and with gym equipment in order to better move, in order to better keep our balance, and in order to become stronger!

At the start of lessons, Mr. Smith will introduce his word bank; at the end, we will do a reflection to share our thoughts! Nice!

Mr. Smith

Peg has a 1L bucket. She also has a 1000mL bucket. Which among Peg's bucket can hold more water? Why?

Hello my dear 2nd Graders!

Welcome back to school! I hope you had a great summer break!

This month we will continue to learn about volume of water. Let's learn how to measure volume of water using our buckets and some bottles in different sizes! I'm sure it will be fun for everyone! Just remember to work together and be careful!

We will also be doing vertical calculations again. This time the calculations will be a little bit more difficult, so let's practice some more and do our best!
